

CLASSIC MOTORCYCLES

TRIUMPH<sup>®</sup>

The Legend TT provides an easy entry into Triumph's classic range, offering exhilarating performance from its proven, 885cc three cylinder engine with its broad spread of torque, and a lean look which harks back to Triumph's past.

The Legend TT is designed to be rider-friendly, with its narrow profile, low seat and low centre of gravity making this an easy, satisfying machine to manoeuvre whether trickling around town or charging down a country lane.

## Thunderbird

There's a magic to the name alone, evoking images of classic machines which the Thunderbird's host of classic features underscore.

From the chromed Triumph badge, standing proud on the teardrop fuel tank, to the wire-spoked wheels and 'peashooter' silencers, the Thunderbird is every inch a modern classic.

But this is a bike to be ridden, to appreciate the security of the handling, the strength and character of Triumph's proven three-cylinder engine, and the confidence inspired by the powerful disc brakes.

Exhilarating, eye-catching and practical too, as much at home in town as out on the open road.

Drawing inspiration from the classic flat-track machines of the past, the Thunderbird Sport is the traditionally styled machine for the rider who demands the sporting ability of a modern motorcycle.

Based on the Thunderbird but with fully adjustable front and rear suspension, sportier 17 inch wheels front and rear, twin front discs the Thunderbird Sport delivers a level of sporting performance unparalleled in classicly styled machines. The soulful three cylinder engine's power is boosted to 83PS, with a mighty 56ft-lb on tap, for a truly agile and exciting performance.

A serious performer with a dramatic, classic look.

For grabbing attention and standing out in the crowd, the Adventurer's already ahead – personalise it with Triumph's comprehensive range of accessories and you'll find no other bike like yours.

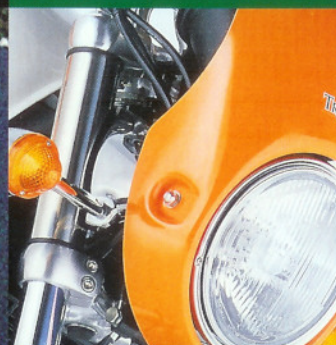

The strength of the Adventurer goes beyond its looks, it's a bike to ride as well as admire. Triumph's proven three-cylinder engine delivers a wide spread of instantly accessible torque, the disc brakes are reassuring and the handling sure and accurate.

Cruiser style without sacrificing the ride.
