Sixty8 Vintage

Triumph's range of vintage sixty8 T-shirts are inspired by classic images from our archive of vintage tees, period ads and posters. With a modern re-mix, these T-shirts are the authentic alternative.

Mod Crushers Club

The Rockers rode British metal like Triumph Bonneville's, wore leather jackets and looked like trouble. Their sworn enemies were the clean cut scooter riding Mods. On Summer Bank Holidays they were drawn to coastal towns around England to fight, looking to become members of the "Mod Crushers Club."

TRIUMPH BREAKS WORLD MOTORCYCLE SPEED RECORD

On September 6th, 1956, at the Bonneville Salt Flats, Utah, a 650 c.c. Unsupercharged, Streamlined Triumph broke the World Motorcycle Speed Record at a mean average speed for one mile of 214 m.p.h. The rider was Johnny Allen of Fort Worth, Texas. It is significant that the engine, gearbox, transmission and wheels of this remarkable machine were built up from standard Triumph production parts, a striking testimony to the design, quality and performance of the Triumph vertical twin engine and its accessories.

Land Speed Record
On September 6th, 1956 at the Bonneville Salt Flats, Utah, Johnny Allen from Texas, broke The World Land Speed Record. He used a 650 cc unsupercharged, streamlined Triumph and managed an average speed of 214 mph for one mile. Remarkably only standard parts were used.
