Genuine Parts

With evolution you need continuity, which is why Triumph Genuine Parts provide a high level of service to all Triumph owners.

Triumph Genuine Parts are the Original Equipment parts used within the factory when building each and every new Triumph, not to work independently but simultaneously to give the high functional level you require.

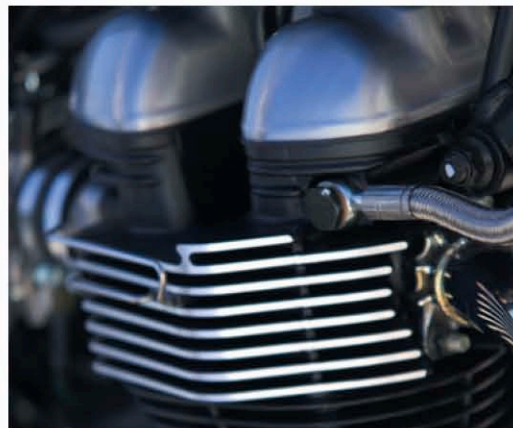

When replacing your motorcycle parts there is no substitute. Triumph Genuine Parts are machined to factory specifications and manufactured to Triumph standards to guarantee a precise fit every time.

Triumph Genuine Parts are from the original manufacturer who built and know your motorcycle the best. Fitting non-genuine parts that were not designed specifically to achieve Triumph's high standards will compromise your motorcycle's demands.

Replacing with Triumph Genuine Parts will protect your investment by maintaining the highest standards of reliability, performance and safety that has established the reputation of which Triumph is known.

Triumph Genuine Parts are delivered within days to dealers supported by a leading parts first pick rate of 99%. This is why Triumph despatch over 12,000 parts each week from our distribution centre based in Hindkley.

Only Triumph Genuine Parts can provide Genuine Service, Genuine Assurance, Genuine Competitive Prices and foremost The Genuine Product.

Alarms

All Triumph alarms are equipped with an alarm connector block in the wiring loom. This allows the Triumph alarm system to be quickly and easily fitted without modification of the wiring loom.

The Triumph alarm has been developed from the Datatool S3 alarm immobiliser and features include:

- Secure PIN override – set your own PIN to disarm if you lose a transmitter
- Selectable silent or audible arming signal
- Intelligent auto sleep mode – protects battery voltage level
- Hazard light function – activated by remote control
- Minimal current drain – 2mA in standard mode
- Selectable siren tone – eight options available
- Internal power siren – dBA 117
- Protective reaction – siren, hazard lights and 2 circuit immobilisation
- Failsafe relays – added rider safety
- Fluid movement detection
- Transmitter battery level warning
- Random code system – secure disarming
- Diagnostic LED – tells you the cause of the system reaction
- Pre-reaction alert – warning beeps when nudged
- Thatcham Category MC1 compliant
- Complied with the British Insurance Industry's Criteria for Motorcycle Security
- Cert No: TMC1 – 84/1001
- SCM approved

*Silencers

Triumph Accessory Silencers do not conform to EPA noise standards. Use on a motorcycle subject to EPA regulation constitutes tampering and is a violation of federal law. These products are designed for closed circuit competition use only. Triumph Accessory Silencers may require carburettor re-jetting or a specific tune download depending on the model. Where required, appropriate jets are supplied with silencers and engine tune conditions for fuel injected models are available from your authorised Triumph dealer.

Warning

1. Owners should be aware that only Triumph Genuine Parts, accessories and conversions for any Triumph motorcycle should be fitted to the motorcycle by an authorised Triumph dealer. Triumph does not accept any liability whatsoever for defects caused by the fitting of non-approved parts, accessories or conversions, or the fitting of any approved parts or accessories or conversions by non-approved personnel. In particular, it is extremely hazardous to fit or replace parts or accessories whose fitting requires the dismantling of, or addition to, either the electrical or fuel systems and any such modification could cause a safety hazard.
2. Only Triumph Genuine Parts should be used to service, repair or convert Triumph motorcycles. To ensure that Triumph Genuine Parts are used, always order parts, accessories and conversions from an authorised dealer. The fitting of non-approved parts, accessories or conversions may affect the handling, stability or other aspects of the motorcycle's operation which may result in an accident causing serious injury or death.
3. Always have Triumph Genuine Parts, accessories and conversions fitted by an authorised Triumph dealer. The fitting of parts, accessories and conversions by a dealer who is not an authorised Triumph dealer may affect the handling, stability or other aspects of the motorcycle's operation which may result in an accident causing serious injury or death.
4. Always have Triumph Genuine Parts, accessories and conversions fitted by a trained technician. To ensure that a trained technician is used, have an authorised Triumph dealer fit the parts. The fitting of parts, accessories and conversions by personnel other than a Triumph dealer may affect the handling, stability or other aspects of the motorcycle's operation which may result in an accident causing serious injury or death.
5. A number of accessories are supplied in kit form and require assembly prior to fitting. Please consult your dealer for full details.

At Triumph we want every ride to be safe and enjoyable. Be sure to ride safely, defensively and within the limits of the law, the road conditions and your abilities. Take a riding skills course. Always wear an approved helmet, eye protection and appropriate clothing and always insist that any passenger does the same. Never ride while under the influence of alcohol or drugs. Study your owner's manual and always inspect your Triumph before riding.

Data given to UK market specification. Specification may vary by market.

All details correct at time of going to press.

Triumph Motorcycles Limited reserve the right to make changes without prior notice.

Please consult your dealer for model and colour availability.

Tested, Tried, Trusted

New Bike Syndrome. You know you've got it when you feel an irresistible urge to fit Sat Nav, leather panniers or a fly screen. Practical reasons of course - nothing to do with the fact you carry the gene for anodised aluminium.

Welcome to the Triumph Accessories Brochure, the place where you really make your bike, your own. Whether you want it more trick or more practical, each bike's accessories are the product of the same minds - designed at exactly the same time as the bike. And we torture our accessories with ingenious nastiness because they have to endure all sorts of weathers.

The result? The same kind of performance, stability and strength as one would expect from our motorcycles themselves.

6

7

8

Leather Panniers

Leather goods (very, very good as it happens)

Rocket III panniers. Hand crafted in England from 4mm thick aniline leather. For the uninitiated, aniline leather is tanned with vegetable material (not coated or pigmented), which gives it a far more natural look. Three, quick-release buckles echo the Rocket's triple theme. Total carrying capacity, 28 litres per bag. Inner bags are available for weather protection and optional chrome dresser rails finish the look.

9

Rocket III

Model shown with Leather Panniers, Pannier Dresser Rails, Pannier Side Embellishers, Pannier Top Embellishers, Leather Tank Cover, Silencer End Caps (B), Roadster Screen, Front End Fixing Kit, Footboards, Sissy Bar Tall & Rack, Sissy Bar Badge, Sissy Bar Touring Back Rest Pad, Touring Dual Gel Seat, Fog Lights, Front and Rear Engine Dresser Bars, Clock, Fuel Gauge, Heated Grips, Knee Pads and Axle Nut Covers.

Model shown with Tribal Custom Paint Scheme, Fly Screen, Front End Fixing Kit, Roadster Gel Seat, Colour Coordinated Rad End Caps, Chrome Oil Tank, Chrome Frame Covers, Axle Nut Covers and Knee Pads.

Roadster Screen

Screen idol

The Roadster Screen illustrates how important it is to get details right by designing accessories at the same time as you design the bike. That classic cruiser profile is rigorously tested in wind tunnels to provide real rider benefits in terms of optimum comfort and protection. The last thing to go through a fly's mind at 80mph may well be the Lexan polycarbonate of your scratch-resistant screen, but you'll never know, because it'll be way over your head.

Chrome Accessories

The shining

Some bikes just wouldn't look right without a bit of chrome - Bonneville's for instance. So you'll find no shortage of chrome accessories for yours: side stands; mudguards; levers; cam covers. And it's not the paper thin stuff either, heaven forbid. When it comes to quality, Triumph pour it on thick.

Bonneville and Bonneville T100

Custom Paint Schemes

Individuality in its most obvious form. Our custom paint finishes use hand painted designs and high quality decals to produce a stylish alternative to the standard motorcycle. Custom paint offers a great way to add even more character to your treasured Triumph motorcycle.

Go faster stripes

The Thruxton is a pretty racey bike to start with, but if you want to underpin the heritage and stand out even more from the crowd, get yourself a custom paint job. Hand painted tank, fly screen and seat cowl finished off with chequered decals, really enhance the café racer look. Unfortunately, you have to get your own silk scarf.

All painted accessories are available in Jet Black (PG), Caspian Blue (ID) or Racing Yellow (FA). Other colours may be available - please consult your Triumph Dealer.

Supersport performance range. Full Titanium Exhaust System.²

Quick gets quicker. Light gets lighter.

A full titanium exhaust system² for the Daytona 675 lets a few more bhp out of the bag. The trade off? To enjoy the howl from this high performance titanium beast, you have to be on a race track. Specific race tune download available from your Triumph Dealer. The Daytona 675 also has loads of carbon fibre¹ accessories made to the highest standard. So if you want to look sleek and lose a few grams, put the bike on a high fibre diet.

¹Due to the manufacturing complexity of carbon fibre, supplies may be limited.

²The Full Titanium Exhaust System has been developed in partnership with Arrow. It offers a power gain of 5PS and a 6kg weight saving compared to the standard system.

Bodywork styling enhancements

Body building

The naked, stripped down Speed Triple. A case where less is more. Try a few body parts: the fly screen sharper than a Samurai sword; belly pan the shape of a shark's tooth; a seat cowl that sits tighter than the ears on an alley cat. The Speed Triple, accessorised with subtlety. Ready to rumble.

Hard Luggage & GPS

Tours, packaged

First must-have: Palm sized Sat Nav system, customised specially for Triumph. Downloadable maps, touch screen function and easy to access menus. For day trippers and those going global. Do not fit if you really do mean to get lost for three hours when getting down the shops. It ruins the excuse. Second must-have: Colour-matched, pannier system with waterproof sealing mechanism that keeps things dry. Designed to flow into the lines of the bike. Quick release panniers turn you from fast tourer to fast sports bike in seconds.

54

High Level Silencer

Can do cans*

The Daytona 955i has a great back end. The rear wheel spins up like a Catherine wheel pinned to that gorgeous, single-sided swing arm. A high-level silencer reveals all this hidden engineering and boosts performance too. With the end can's high-grade, 360o carbon fibre wrap you can almost taste the chilli sauce of a bike with 147 bhp that's now even hotter. Specific engine tune available from your Triumph Dealer improves power delivery.
