GO YOUR OWN WAY

GENUINE ACCESSORIES PRODUCT DEVELOPMENT

All Triumph Genuine Accessories go through a full testing and development process to ensure industry leading levels of quality, reliability and safety.

CONCEPT

Customer and dealer feedback, design clinics attended by riders and in-house knowledge are pooled together to create the ideal range of Accessories for each new model.

What many people do not realise is that the concept stage for Accessories takes place at exactly the same time as the bikes. How else can we ensure they work so harmoniously together?

TECHNICAL DESIGN AND STYLING

Once a design concept has been chosen it is then down to the business of making it a reality. Production materials and methods need to be appraised at this early stage, as they will have an affect on the ultimate styling and function of the product.

There is a process of prototyping, testing, reviewing and making any changes necessary to make sure the product looks and performs as it should.

TESTING AND QUALITY

All Triumph Accessories go through a gruelling, and often destructive, series of tests. This way we can be sure that the Accessories are up to the job.

Take Pavé testing for example. This involves riding a bike over rough cobbles, such as you may find in quaint Belgian towns (only potholed, uneven and extremely bumpy) to simulate the enormous mileages that a bike and its Accessories may find itself doing.

The lucky accessory will also find itself being subject to humidity and salt tests, UV and X-rays, cosmetic inspections and numerous other tests dependant on the product.

For approved exhaust systems this process involves the development of a bespoke engine tune for each exhaust to ensure the engine and silencer perform at the optimum level.

Rest assured that Triumph Accessories perform as intended.

AFTERSALES

Why do we go to these lengths with our Accessories? The answer is simple.

We want to be sure that our range offers the high levels of reliability, quality and performance our customers expect.

As a result we're pleased to offer a full 2 year warranty on all Triumph Genuine Accessories.

TIGER
EXPLORER

ADVENTURE - TIGER EXPLORER

EXPLORER PANNIER SYSTEM

Fully weatherproof injection moulded construction, single key locking mechanism that is matched to the ignition key. Supplied complete with mounting hardware and dynamic mounting system. Capacity LH 37 Litres, RH 25Litres. Can accommodate a full face helmet in RH pannier. 5kg Load Limit per pannier.

OUR WORK EXTENDS FAR BEYOND THE FACTORY GATES.

We're proud of the bikes we build. We're proud of the materials we use and the people who turn our ideas into reality.

It's simple. If it doesn't meet our exacting standards we won't put our name to it. We test every component in every condition. Every single part and accessory goes through a rigorous assessment programme to simulate the very worst you can throw at it, and then some more. Hot or cold, rain or shine, one-up or two, we go to the limit to give you the best.

Our confidence provides you with a 24 month unlimited mileage warranty on Triumph Genuine Parts & Accessories. Our parts service is faster and more efficient than any other – we even supply parts for Triumphs dating back to 1991. If you want the best for your bike, you want Triumph Genuine Parts.

GO YOUR OWN WAY

Alongside the knowledge that we give you a two-year unlimited mileage warranty on your new Triumph you know that with us you are getting more than just a motorcycle.

2 **UNLIMITED**
YEAR **MILEAGE**
WARRANTY
INCLUDED AS STANDARD

BEYOND THE FACTORY GATES

The photography within this brochure shows Triumph motorcycles being used by expert professional riders in protective gear under professionally controlled, closed course conditions. Triumph does not endorse or encourage stunts, tricks or any form of irresponsible riding. At Triumph, we want every ride to be safe and enjoyable. Always ride safely, defensively and within the limits of the law. Always ride appropriately for road conditions. Always ride within your ability. Take a riding skills course. Always wear an approved helmet, eye protection and appropriate protective clothing. Always insist that all passengers do the same. Never ride whilst under the influence of alcohol or drugs. Study your owners' manual and inspect your Triumph motorcycle before riding. Seat heights are measured without a rider seated on the bike. *Silencers: Unless otherwise stated, Triumph accessory silencers do not conform to on-road noise or emissions standards in countries where such standards apply. Use on-road may therefore violate the law. These products are designed for closed circuit competition use only. Triumph accessory silencers will require a specific tune download. Specification may vary by market. Some accessories are prohibited by local law. As a motorcycle owner/ rider, it is your responsibility to know of and comply with all local laws. If you have any doubt, contact your local authorities. All details correct at time of going to press. Triumph Motorcycles Limited reserve the right to make changes without prior notice. Please consult your dealer for model and colour availability. © 2012 Triumph Motorcycles Limited. All rights reserved. Alpinestars® is a registered trademark of Alpinestars S.p.A.
